## PROFESSIONAL SUMMARY

My Name Is Umoh Ukpong Okon, A.K.A. Angel Ukpong. I am an experienced Web and Blockchain Developer with over 10 years of expertise in bridging Web2 and Web3, building decentralized applications (dApp), and driving digital transformation. As the Founder & Lead Developer & CEO of Joaquina ICT Development Port, I have overseen the growth of innovative ICT services and consultancy projects, leveraging cutting-edge technologies to create scalable and secure solutions.

## PROFESSIONAL EXPERIENCE

### JOAQUINA ICT DEVELOPMENT PORT 2020 - PRESENT

- Lead and manage the development of ICT services and consultancy projects.
- Spearhead digital transformation projects for clients in various industries, integrating Web3 and blockchain technologies.
- Implement DevOps practices and oversee decentralized application (dApp) development to ensure secure and scalable solutions.

### WEB & BLOCKCHAIN DEVELOPER (ONGOING PROJECTS)

- Akwa Ibom State Government Personnel System (TALL Stack)
- Federal Government of Nigeria HR Management Project (MERN & Golang Stack)
- ALGON Staff Management System (TALL & MERN Stack)
- Rivers State Government Employee Platform (VILT Stack)

## KEY SKILLS

- **Web & Blockchain Development:** React, Next.js, Solidity, MERN, LAMP, Python-Django, TALL, VILT, .NET, Serverless
- **DevOps:** Docker, Kubernetes, CI/CD, Ubuntu Linux administration
- **Database Management:** SQL (Postgres, MySQL, SQLite), NoSQL (MongoDB, Firebase)
- **UI/UX Design:** Tailwind, Figma
- **VPS Deployment:** Virtual Private Servers (VPS) with Ubuntu Linux
